

# FRIDAY ENVIRONMENT FORUM

NPA Environment Centre

September 28, 2018

Kids Leading Kids

*Safron and Junior Leaders assist younger children at an Eco Discovery Workshop about Turtles*

If you are looking for an inspiring school holiday activity for children and grandchildren, then this week's Noosa Parks Association's Friday Environment Forum on Sept 28 is the place to be.

Meet three young locals who spend their spare time working to help make our environment a safer place for native wildlife. **Tallulah, Liam and Safron lead**

**by example** when they regularly organise and conduct beach clean ups in readiness for turtle nesting season. Ensuring that local beaches are rubbish free is important to preserving the health of turtles that return annually to nest here.

**As Junior Leaders for the Eco Discovery Program** run by Coolum and North Shore Coast Care, these teenagers are part of an active junior team involved in helping devise and run activities for the many local children who take part.

Audience members will also learn about the **Kids in Action Program** that works through schools encouraging children to explore local environmental issues and requiring teams of students to develop solutions to identified problems.

**Join the audience at the Environment Centre, 5 Wallace Drive Noosaville** from 10 am for coffee, with the forum commencing at 10.30am. All who would like to learn more about the birds and insects of Wallace Park are invited to meet Valda in the car park at 8.30am for an **Interpretive Birding walk**. Bring hats and binoculars.

*Young people taking the initiative to help others learn about our natural environment.*
