

# FRIDAY ENVIRONMENT FORUM

## NPA Environment Centre

### 20 September 2019

## Tackling the War on Waste

### Snapshot of waste in Queensland

In 2017-2018 ...

Queensland has a new Waste Management and Resource Recovery Strategy, underpinned by a waste disposal levy, helping provide the strategic framework for Queensland to become a zero-waste society, where waste is avoided, reused and recycled.

The strategy guides us away from our current 'take-make-use-dispose' approach, and creates a new, more circular system keeping materials in use for longer, extracting the maximum value from them.

To help understand what this means, learn where our waste goes (what we COULD do with it) and help understand how communities can get involved to be part of the solution, join **Daniel Phipps, Senior Environmental Officer, from the Department of Environment and**

**Science** who will be the guest speaker at Noosa Parks Association Friday Environment Forum on September 20.

Be part of the audience on Friday morning at the **NPA Environment Centre, 5 Wallace Drive Noosaville from 10.30am to 12.15pm**. Arrive at 10am for coffee and chat. All are welcome and a donation is appreciated.

Recycling waste

**Investigate the birds of Wallace Park with Valda and the Interpretive Birding Group. Meet at 8.30am in the car park. All welcome**
